Concept into a Strong Product

## Concept

## Formula Development

## Packaging Selection

## Manufacturing

## Technical Support

We have the capability of Adding a **Differentiated Concept** to an Existing Range or working on Entirely **New Idea**. Thanks to more than 7 years of Experience in Dermatology, we possess a high level of **Comprehensive Know – how** and **Systematic** Product Development System **Tradition and Innovation** are second Nature at D R Skincare.

Our **Dedicated team of Formulation chemists** works on the concept to turn into an **Aesthetic, Effective and Stable Formulation**. The FR & D team also conducts **Stability & Safety assessments** during the formulation development process,

A strong product needs to have an **Outer Appearance** that can live upto its **Quality** We have a dedicated packing and design department supported by a **Separate Packaging QC team**. We have **Multiple Packaging Options** ranging from Round tubes, Oval Tubes, Airless Tubes to Glass /Plastic Bottles, Jars and Airless containers.

Our **Wide and Sophisticated Equipment** range helps us to manufacture a wide array of products ranging from simple solution to **Very Complex Emulsion Systems** including **Micro and Nano Emulsions**. We have manufactured vessels from 300 kg to 2000 kg which give us the **Flexibility** of manufacturing variable batch sizes.

High Performance cosmeceutical Products need to be Supported with **Scientific Documentation**. Our technical team assists in creating an **Effective Communication Brief** which forms the basis of a **Strong Brand**. We also provide Assistance in **Safety/ Efficacy Substantiation** from renowned Laboratories across the country and abroad.
